

BUSINESS - ACCOUNTING

Program Outline

Major:	BACT
Length:	2 Years
Delivery:	4 Semesters, plus 2 work terms
Credential:	Ontario College Diploma, Co-op
Effective:	2015-2016
Location:	Barrie
Start:	Fall (Barrie), Winter (Barrie)

Description

This program introduces students to the various functional aspects of business in general, and accounting in particular. Graduates are able to apply computer, communication, and mathematical skills and employ management accounting techniques to support accounting activities, including the maintenance of accounting records and the preparation of financial statements and individual tax returns.

Career Opportunities

Graduates of Business - Accounting and Business Administration - Accounting Programs work in a broad range of employment settings in all sectors of business and industry, including banks and other financial institutions, government offices, public accounting firms, small business, self-employment, tax preparation firms, financial planning firms, manufacturing firms, and non-profit organizations.

Program Learning Outcomes

The graduate has reliably demonstrated the ability to:

- maintain paper and electronic accounting records and prepare financial statements for sole proprietorships, partnerships, and corporations in accordance with Generally Accepted Accounting Principles;

- employ management accounting techniques in the planning, directing, and controlling of an enterprise;
- prepare routine tax returns for individuals ensuring compliance with relevant legislation and regulations;
- use mathematical techniques to support the financial management of a business organization including the preparation of financial information;
- apply computer skills and knowledge of accounting information systems to support the accounting function including maintaining accounting records and preparing financial statements and reports;
- recognize the impact of the operations of functional areas of an organization on its financial performance;
- recognize, within the context of the Canadian business environment, the impact of factors such as economic variables, legislation, and ethics on business operations;
- apply contemporary business communications practices and effective interpersonal skills to support the accounting function;
- employ environmentally sustainable practices within the profession.

Practical Experience:

Co-operative Education is a mandatory component of all Co-op programs at Georgian College; it has been designed as a process by which students integrate their academic education with work experience related to their programs of study. This integration affects much more than simply earning a salary, including the adjustment to the work environment and the development of professionalism. It also reinforces skills and theory learned during academic semesters, develops professional contacts, job knowledge and career path, improves human relations and communication skills, and promotes personal maturity and financial independence.

Students are requested to register, attend and participate in their scheduled co-operative education classes. These classes are scheduled for all first year students and are expected to be completed in order for students to proceed successfully to their first co-op work experiences. To ensure students are eligible to proceed onto any co-op work experience, students should refer to Promotional Status and Eligibility for Co-op as outlined in the College Calendar. Co-op policies and procedures can be located on our website: www.georgiancollege.ca/student-services/co-op-and-career-services/students-tab/

Georgian College follows the Co-operative Education guidelines set out by the Canadian Association for Co-operative Education (CAFCE) and Education at Work Ontario (EWO) by supporting the learning outcomes designed for the program specific graduate profile and curriculum as set out by the Ministry of Training, Colleges and Universities.

The Program Progression:

Fall Intake - Barrie

This intermediate financial accounting course emphasizes the critical concepts of assets, liabilities and shareholders' equity. This course is designed to provide the students with the opportunity to identify, interpret and apply current accounting standards in the areas of: investments, capital and intangible assets; current and long term liabilities, and Shareholders' Equity.

P- ACCT2001 Intermediate Accounting 1 or P- ACCT2008 Intermediate Accounting 1 (ODE) or P- ACCT2006 Intermediate Accounting 1 (ODE) or P- ACC2251 Intermediate Accounting 1 or P- ACC2257 Intermediate Accounting 1

ACCT2003 Cost Accounting 1 42.0 Hours

This course is an introduction to Cost Accounting as a Management tool. Emphasis will be placed upon the application of cost accounting theory in the solution of problems and case studies.

P- ACCT1000 Financial Accounting Principles 1 or P- ACCT1004 Introduction To Accounting or P- ACCT1010 Accounting 1 or P- ACCT1008 Financial Accounting 1 (ODE) or P- ACC9101 Introduction To Accounting or P- ACC2122 Financial Acctg. Principles 1 or P- ACC2113 Intro Accounting 1 or P- BDE2101 Introductory Accounting or P- BDE2123 Financial Acct I

ACCT3004 Accounting Information Systems 42.0 Hours

This introductory course offers students an overview of Accounting Information Systems. Through examining business processes and internal controls, this course introduces students to hardware and software of computer systems; file and database organization; networks and telecommunications; the systems development process; designing information systems solutions; internal controls; and the management of information systems. The comprehension of these essential concepts lays the foundation for students as future managers of Accounting Information Systems.

P- ACCT1001 Financial Accounting Principles 2 or P- ACCT1005 Financial Accounting Principles or P- ACC2121 Financial Acctg Principles or P- ACC2123 Financial Acctg Principles 2

BUSI1001 Introduction to Organizational Behaviour 42.0 Hours

Organizational Behaviour is an introductory course which teaches social science theory as applied to the business world. It provides rich insights about working people in all kinds of organizations and also suggests how people may be motivated to work together more productively.

COMP1003 Microcomputer Applications 42.0 Hours

This course will introduce the student to database, spreadsheet, and presentation software. The student will be provided with a working knowledge of the most common

business computer application software. This course will provide the student with hands-on learning and independent study.

COOP1008 Business Work Term 1 560.0 Hours

Co-operative Education is a mandatory component of this diploma at Georgian College and is a requirement for graduation. The student is required to attend and participate in scheduled Co-op classes (CPHR0001) prior to their first Co-op work term. Each student is responsible for obtaining a Co-op work term that is program related with an employer that has been approved by their Co-op Consultant. A debriefing session will be held upon return to school. The student must successfully complete the Co-op work term and submit all of the required documentation in order to receive the Co-op credit.

COOP2025 Business Accounting Work Term 2 560.0 Hours

Building on work term one, the student will acquire industry related experience and achieve learning outcomes specific to the Business - Accounting program while developing knowledge and skills relevant to their program of study. The first Co-op credit must be successfully completed prior to the second Co-op work term. A debriefing session will be held upon return to school. The student must successfully complete the Co-op work term and submit all of the required documentation in order to receive the Co-op credit.

P- COOP1008 Business Work Term 1

ECON1000 Microeconomics 42.0 Hours

This course provides an introduction to the principles and methods of economic analysis. The course examines how households and firms make economic decisions. It also analyzes the efficiency of scarce resource allocation under a range of market structures.

ECON2000 Macroeconomics 42.0 Hours

This course is designed to give students an understanding of how the overall economy operates and what economic indicators tell us about its health. The course explores government options for stabilizing the economy, and the impact of international trade. It is highly recommended that students take Microeconomics (ECON 1000 or equivalent) prior to taking this course.

FNCE2002 Taxation 42.0 Hours

This course introduces the student to Canadian Income Tax legislation and practice, related to the filing of personal income tax returns.

P- ACCT1004 Introduction To Accounting or P- ACC9101 Introduction To Accounting or
P- ACCT1000 Financial Accounting Principles 1 or P- ACC2122 Financial Acctg. Principles
1

FNCE2010 Financial Management 42.0 Hours

This is an introductory course in financial management, with an emphasis on the major decisions made by the financial executive of an organization. The student studies topics in the financial management of profit-seeking organizations. A major objective is the development of analytical and decision-making skills in finance through the use of theory questions and practical problems.

P- ACCT1001 Financial Accounting Principles 2 or P- ACCT1007 Accounting 2 or P- ACCT1009 Financial Accounting 2 (ODE) or P- BDE2110 Accounting 2 or P- BDE2124 Financial Acct II or P- ACC2123 Financial Acctg Principles 2 or P- ACC2114 Introductory Accounting 2

HURM1000 Human Resources Management Foundations 42.0 Hours

This course provides an understanding of the modern Canadian human resources function. It covers the historical development of human resources management, the influence of government, staffing, employee relations, current trends and future issues. It provides a brief introduction to more specialized areas including compensation, training and development, employment law, industrial relations, occupational health and safety, and human resources planning.

LAWS2000 Business Law 42.0 Hours

This course covers the legal framework within which business takes place. The student learns how to avoid legal problems. Major topics include: the Canadian legal system, torts, contract law, the Sale of Goods Act, consumer protection, and employment law.

MATH1002 Mathematics of Finance 42.0 Hours

This introductory course is designed to develop a student's ability to perform basic mathematic operations and to apply mathematical techniques to a wide range of business problems. The mathematics of compound interest and annuities forms a major component of the course.

MKTG1000 Introduction to Marketing 42.0 Hours

This is an overview course with primary focus on marketing products and services to the ultimate consumer. Emphasis is placed on the basic marketing premise that customer needs must be satisfied in order to achieve company objectives. The student gains insight into the complex and interdependent variables involved in developing successful marketing strategies. The strategic marketing planning process is introduced, along with the specific concepts and principles involved in the four key components of the marketing plan - Product, Price, Distribution, and Promotion Strategies.

STAT2000 Statistics 1 42.0 Hours

This course is designed to develop students' skills in organizing and summarizing information. It also provides an introduction to the techniques of inferential statistics (that is, drawing conclusions about populations on the basis of sample data). Students are expected to have and further develop their skills with spreadsheet software.
