Welcome

We are pleased to submit the new Georgian College strategic plan. This plan will ground our efforts for the next five years, providing a touchstone to focus our energies during a time when the needs of students and graduates continue to rapidly evolve and expand.

Our vision is to accelerate success through exceptional teaching and learning, innovation and partnerships. We will focus on four key priorities: accelerated success, meaningful collaboration, inspired innovation and strong foundations.

Partnership and collaboration were at the core of our year-long strategic planning process which totalled more than 1,000 points of engagement with students, staff, graduates, community leaders, employers and other stakeholders.

The result is a plan fully aligned with our Strategic Mandate Agreement, focusing on quality market-driven programs from apprenticeships and skills development to the advanced education of degrees, all offering relevant curriculum for in-demand jobs.

Much of this plan builds on our success – as a college system trailblazer in entrepreneurship and social innovation, as Ontario’s top co-op college, and as a long-time postsecondary leader in environmental sustainability.

In the future, we will go further. Bold new measures we will undertake over the life of this plan include:

- A guarantee to employers of our graduates’ job readiness.
- A comprehensive degree strategy for central Ontario including Georgian degrees, joint and integrated degree-diplomas and partner degrees.
- A degree pathway delivered in our region for every Georgian diploma program.
- Enriched learning through meaningful research and scholarship that connects students, employees and the community.

We recognize our students are changing – and Georgian must continue to change as well. To that end, we will internationalize our campuses to enhance cultural awareness, support our growing number of international students and create greater study abroad opportunities for domestic students. We will also focus on the Indigenization of curriculum and our college community. And we will continue to expand and evolve program offerings and delivery methods in response to shifting labour market demand and demographics.
Accelerating success is Georgian’s promise and responsibility to our graduates, employers and the communities we serve. We have every confidence this new strategic plan will guide us in this important effort.

MaryLynn West-Moynes  
President and CEO  
Georgian College

Tom McBride  
Chair  
Georgian College Board of Governors
MISSION, VISION AND VALUES

Our mission.

Inspire innovation, transform lives and connect communities through the power of education.

Our vision.

Accelerate success through exceptional learning, innovation and partnerships.

Our values.

Excellence.
Community Engagement.
Integrity.
Inclusion.
Sustainability.
Environmental scanning is an integral part of understanding and interpreting the current and anticipated forces that affect our college. Several key issues in our internal and external environment were identified in 2015 and were taken into consideration throughout our plan’s development. The following points summarize several highlighted key issues.

**Key risks and opportunities.**
- Intense competition in attracting and retaining students.
- International student enrolment continues to increase.
- New Canadians/immigrant families prefer metropolitan areas.
- Wage freezes across the Ontario Public Service and broader public sector.
- Ontario government’s challenging fiscal situation will result in additional consequences for colleges.
- Ontario government’s decision with regards to the delivery of degree-level education in Simcoe County.

**Social shifts.**
- Ontario’s 15 to 24 age segment is not expected to increase until 2023; in Central Ontario, that age segment will decrease by 9% from 2015 to 2021 and not increase until 2025.
- Urban population continues to grow while rural declines.
- Aboriginal population is growing faster than Canada’s population.
- In 2015, seniors will outnumber children under 14 for first time.
- Working age segment will not be able to support aging population.
- Canadian seniors are delaying retirement.
- The Ontario college system serves over 304,000 students annually (+22%) over the past five years.
- The colleges in Central and Eastern Regions grew by 19% while Western Region colleges grew 9%.
- Changing public expectation of purpose and value of postsecondary education.
More than 28,000 international students in Ontario colleges in 2014 (+357%), huge increase in last 10 years.

44% of Ontario college students had some previous postsecondary education.

**Technological trends.**
- Online and mobile device delivery is continuing to increase.
- Printed books are expected to account for >80% of books sold (textbooks are the exception).
- In-store mobile payments are now mainstream and will increase.
- Significant variations in home broadband speeds will persist in Canada.
- Postsecondary institutions are increasingly implementing big data strategies.

**Economic considerations.**
- China surpassed US in 2015 as the world’s largest purchasing power economy and Eurozone still in crisis.
- Bank of Canada further lowered its benchmark interest rate.
- Weaker Canadian dollar may result in hiring increases in manufacturing.
- Labour shortages in some professions.
- High rate of youth unemployment or underemployment.
- Drop in the proportion of Ontario college graduates reporting related full-time employment.
- Employers prefer to hire candidates with work experience.

**Political trends.**
- Educational highlights from the federal and provincial budgets.
- The Premier’s postsecondary agenda and commitments.
- Changes to Canadian immigration regulations.
- Increased emphasis on postsecondary education and links to labour market.
- Focus on differentiation and reducing duplication.
- Reform of university and college funding formulas.
- Government review/recommendation regarding a framework for the delivery of degree-level education through the University Partnership Centre at Georgian College.

REVIEW OF FOCUS 2015

In 2013, Georgian refreshed its 2010-15 strategic plan to align with and increase focus on emerging new priorities. The revitalized plan, called Focus 2015, was grounded by four strategic priorities—pathways, extraordinary experiences, community connections and operational excellence. These strategic priorities guided the college’s key strategies actions for three years and nearly every goal was achieved. Through these strategies, our unwavering efforts and our commitment to quality, Georgian remained true to its mission to inspire innovation, transform lives and connect communities through the power of education.

Pathways.

Over the course of three years, Georgian evolved its partnership with Lakehead University and put a plan in place to expand degree capacity through an expansion of program offerings in Barrie and Orillia, building on the strengths of both institutions and combining the best of university education with the best of college education while merging critical thinking and practical skills development. Georgian was also granted a new honours designation for our degree programs, which positions students to apply for graduate studies.

A key initiative was to increase the number of courses that the college offers via flexible format. Six hundred courses are now offered through fully online learning, including our Police Studies degree program, which can now be taken part-time online. Videoconferencing has been introduced at our smaller campuses, allowing students to access courses and programs that would not otherwise be available at their campus locations. Videoconferencing has also enabled courses to be run at smaller campuses where it would not be feasible to offer programs traditionally due to the lower enrolments.

Georgian developed a comprehensive, integrated and actionable strategic enrolment management plan that engaged much of the college community and placed heightened relevance on and improved our strategies for marketing, recruitment and retention. One outcome in particular—holistic advising—has resulted in a new process for student success advising that will be piloted and implemented in the coming year. Other retention efforts were implemented, including an Early Alert program to assist faculty members with identifying academic concerns and enabling students to quickly access appropriate college resources, and the Georgian Profile survey, which is administered to first semester students to promote the services available to students and identify those at risk of not persevering with their studies.

QNomy technology at the Barrie campus was implemented to modernize service delivery and shorten the distance between students’ issues and solutions; students no longer have to wait in long lines to seek help and are immediately directed to the type of service they require. The technology has also provided a rich source of data used to measure continuous improvement.
Georgian’s international efforts have resulted in tremendous growth and new international agreements and partnerships were put into place. The college is now home to 1,100 international students from 60 countries, compared to a decade ago when 306 international students from 17 countries attended.

**Extraordinary experiences.**
Through a concerted effort to expand the college’s experiential learning model to offer a suite of applied learning options integrated with program curriculum, at least one component of experiential learning is now embedded in every diploma, advanced diploma and degree program at Georgian, and helps to distinguish our graduates. This was accomplished through developing opportunities for community service learning, international study and/or work abroad, co-operative education, applied research, student-run enterprises and interdisciplinary studies.

Georgian recently introduced a co-curricular record for students, which captures those activities that are not traditionally recognized on academic transcripts. This official document helps students who are applying for jobs and advanced education opportunities.

**Focus 2015** concentrated on further developing entrepreneurship and community service learning as signature learning experiences at Georgian, and entrepreneurial learning outcomes were embedded in all of our programs. The Henry Bernick Entrepreneurship Centre at the Barrie campus continues to be a hub and resource for both aspiring and seasoned entrepreneurs, averaging one new client intake per day. The Centre, which provides support for mentorship, networking, funding and training, launched the Barrie Entrepreneurs Connect portal and website with the City of Barrie. Food entrepreneurship has become a niche area for the college as well, with Georgian hosting several community seminars at or various campus locations as well as a large conference in 2016. The Centre for Social Entrepreneurship in Orillia also continues to flourish by bringing together faculty, students and non-profit organizations to respond to complex issues and to effect positive social change. Through student-led projects like the graffiti clean-up project, research, workshops and innovative curriculum, the centre is inspiring the next generation of changemakers to use social entrepreneurial skills and mindsets to transform their communities. The centre recently launched the Simcoe County Social Enterprise Network aimed at strengthening the non-profit social enterprise sector in the region; it also hosted a consultation with the Ministry of Economic Development, Employment and Infrastructure with input to help guide social enterprise and social finance policy for Ontario.

**Community connections.**
Georgian focused on building community and industry partnerships through several key strategies, including strengthening ties to the Aboriginal community. Throughout the term of **Focus 2015**, we continued to increase indigenous knowledge sharing at our campuses through cultural training, events, classroom support and integrated student support. Georgian now has
Aboriginal Resource Centres at four of our campuses, offering a range of services to students and the community.

Recognizing the rapidly changing and competitive environment in which the college operates, Georgian embarked on a renewal of our brand platform that considered the perspectives of 5,161 people through focus groups, personal interviews and online surveys. This process resulted in a new identity and brand promise that Georgian can “Accelerate your success” and was accompanied by a new college logo.

Georgian introduced the President’s Thought Leadership Speaker Series to showcase leaders who share expertise and experiences on a wide range of topics that inspire and provoke thought. The sessions bring together postsecondary and secondary students, employees, alumni, donors and the community. Leaders who have participated include Dr. David Suzuki, Col. Chris Hadfield, Retired Canadian General Rick Hillier and Olympic gold medalist and Georgian graduate Jon Montgomery. Other speakers, including Pinball Clemons, Stuart Knight and Adam Kreek came to Georgian to provide the keynote address during Georgian Week, the annual employee professional development initiative.

Georgian launched a very successful second phase of the Power of Education campaign that raised substantially more dollars over target. The campaign, which is about transforming the student experience, raised $40 million, well beyond the goal of $25 million.

**Operational excellence.**

Ensuring fiscal sustainability was a central focus of *Focus 2015*. Georgian introduced a new budget process to enhance efficiency targets and the impact on students, which enabled more timely approval of the budget and priorities. The Finance Transformation Project was launched with a vision to achieve increased operational effectiveness and efficiencies in finance business processes, including timely access to meaningful information to support decisions and college priorities. The new system has resulted in more effective and efficient finance business processes, improved quality of data and information to support decision making, improved accountability and controls, stability and continuous improvement and the continuous evaluation of financial processes and system enhancements.

Hyperion, an integrated planning and budgeting tool, was introduced to enhance existing systems and replaced many manual processes. Purchasing and procurement protocols were strengthened to reduce risk and to reflect best practices and standards.

Over the course of *Focus 2015*, Georgian installed a Campus Safety and Security department to ensure a safe and secure environment for students, employees and visitors at all college campuses and facilities. The department has implemented processes governing lockdown, fire safety, violence, emergency response and Occupational Health and Safety. Recently, a new lockdown procedure and incident management system were introduced.
OUR STRATEGIC PRIORITIES

ACCELERATED SUCCESS

COMMITMENT 1

Quality market-driven programs.

<table>
<thead>
<tr>
<th>Strategies</th>
<th>Success outcomes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Create degree pathways in every diploma program.</td>
<td>All programs mapped to a degree pathway.</td>
</tr>
<tr>
<td>Offer relevant curriculum for in-demand jobs.</td>
<td>Increased graduates finding jobs in their fields.</td>
</tr>
<tr>
<td>Use the Program Assessment process to drive program sustainability.</td>
<td>All Georgian programs are sustainable.</td>
</tr>
</tbody>
</table>

COMMITMENT 2

Experiential learning and employer guarantee.

<table>
<thead>
<tr>
<th>Strategies</th>
<th>Success outcomes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Expand experiential learning opportunities in every program and offer a wide range of co-curricular activities to ensure students have the skills and capabilities to succeed.</td>
<td>Enhanced experiential learning, work integrated learning and co-curricular opportunities in every program. The co-curricular record is valued by employers as an important complement to graduates’ academic records.</td>
</tr>
<tr>
<td>Develop an employer guarantee for student job readiness.</td>
<td>Increased employer satisfaction.</td>
</tr>
</tbody>
</table>
COMMITMENT 3:
**Effective student supports and services.**

<table>
<thead>
<tr>
<th>Strategies</th>
<th>Success outcomes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Streamline delivery of student services through a unified online portal.</td>
<td>Increased overall student retention, satisfaction and engagement.</td>
</tr>
<tr>
<td>Provide integrated student support through holistic advising.</td>
<td></td>
