Additional Information

- Students may be required to purchase or to install computer hardware or software outside of standard program tuition/ancillary fees. These requirements will be provided as part of the course specific documentation upon enrollment.
- Based on the program of study and semester organization, students who have successfully completed semester 1, may wish to write the Certified Associate in Project Management (CAPM)® Certification Examination.
- Based on the program of study and semester organization, students who have successfully completed semester 2, may wish to write the Project Management Professional (PMP)® Certification Examination.
- CAPM and PMP are registered marks of the Project Management Institute, Inc. See http://www.pmi.org/certifications (http://www.pmi.org/ certifications/) for additional information regarding the prerequisites associated with these examinations and designations.

What are the varying forms of delivery?
This program is delivered through GC Flex.

All courses will be delivered in-person in Port Elgin.

Why is this program delivered using GC Flex? This gives students the choice to study in-person, online virtually or online asynchronously.

What is GC Flex?
A GC Flex course means faculty deliver lectures and labs in the classroom and simultaneously online.
This means the course has a day and a time so that students can come in person, they can watch the lecture live virtually during the class time OR they can take the course asynchronously.
All students are in the same section. You just study the way that works best for you.

[View the GC Flex ebook](#)

Students wanting to study online asynchronously – PLEASE NOTE – because these courses are delivered in 3 different methods, the course you register into will show a day and time – if you choose to study asynchronously, you are not required to attend live classes, either virtually or on-campus but you MAY be required to be online at certain times to attend live group work or presentations or for tests/exams.

Business Acumen for PMs
PRJM 1011

Course description
In this course, students focus on developing their business acumen in the context of delivering successful projects in a rapidly changing business environment. By looking at an organization's strategic environment, students gain an understanding on where projects fit with organizational objectives. Students learn how market awareness, business models, strategic planning, effective management, stakeholder relationships, and operational functions all play a role in project benefit realization.

Credits	Course Hours
3	42

Students registering for credit courses for the first time must declare a program at the point of registration. Declaring a program does not necessarily mean students must complete a program, individual courses may be taken for skill improvement and upgrading.

For more information, please contact Continuing Education

Available Courses
Unless stated, the course fee does NOT include the textbook(s). Not all courses have required textbooks. See registration dates for courses that are not yet open.
