

GOLF FACILITIES OPERATION MANAGEMENT

Program Outline

Major:	GLFO
Length:	2 Years
Delivery:	4 Semesters, plus 1 work term
Credential:	Ontario College Diploma, Co-op
Effective:	2012-2013
Location:	Barrie
Start:	Fall (Barrie)

Description

This four semester program is designed to prepare graduates for employment in the Golf sector of the Hospitality industry. The Golf Facilities Operation Management program blends theoretical concepts taught in the classroom with practical learning opportunities gained through exposure to various golf facilities in North America. The first year of the program is a general introduction to the elements necessary to work within this highly competitive sector. Topics include Introduction to Golf, History and Rules, Golf Skills Improvement, Golf Equipment, Storage and Repair and Hospitality Industry Certifications. Industry specific courses in the second year including Golf Operations, Policies and Procedures, Introduction to Golf Facilities and Issues and Trends in Golf Operations prepare students for the positions they will fulfill when they enter the industry.

Career Opportunities

Georgian's Golf Facilities Operation Management Diploma takes into account the current industry trends and educational programs offered throughout Canada by introducing a program which prepares students for a competitive employment environment. The program will equip graduates with the necessary competencies to achieve employment in positions including but not limited to a Pro Shop Manager, Tournament Director or Golf Equipment Tech Representative.

Program Learning Outcomes

The graduate has reliably demonstrated the ability to:

- select and apply appropriate and relevant practices necessary for the day-to-day maintenance of a golf operation;
- enhance relationships with facility stakeholders through the implementation of effective customer service strategies;
- identify and utilize principles of supervision necessary to assist with the effective execution of pro-shop operations and the organization of special events;
- contribute to the effective and efficient management of other golf operations including food and beverage operations by identifying and applying requisite skills;
- assess the impact of provincial, national, and/or global trends and events on golfing and recreation, in order to effectively contribute to the overall operational effectiveness and efficiency of the facility.

Practical Experience:

Co-operative Education is a mandatory component of all Co-op programs at Georgian College; it has been designed as a process by which students integrate their academic education with paid work experience related to their program of study. This integration affects much more than simply earning a salary, including the adjustment to the work environment and the development of professionalism. It also reinforces skills and theory learned during academic semesters, develops professional contacts, job knowledge and career path, improves human relations and communication skills and promotes personal maturity and financial independence.

Students are requested to register, attend and participate in their scheduled co-operative education classes. These classes are scheduled for all first year students and are expected to be completed in order to proceed successfully to their first co-op work experience. To ensure students are eligible to proceed onto any co-op work experience students should refer to Promotional Status and Eligibility for Co-op as outlined in the College Calendar. Co-op policies and procedures can be located on our website:
www.georgianc.on.ca/careers/for-students/

Georgian College follows the Co-operative Education guidelines set out by the Canadian Association for Co-operative Education (CAFCE) and Education at Work Ontario (EWO) by supporting the learning outcomes designed for the program specific graduate profile and curriculum as set out by the Ministry of Training, Colleges and Universities.

The Program Progression:

Fall Intake - Barrie

Sem 1 | Sem 2 | Work Term | Sem 3 | Sem 4

Fall 2012		Winter 2013		Summer 2013		Fall 2013		Winter 2014
--------------	--	----------------	--	----------------	--	--------------	--	----------------

Articulation:

A number of articulation agreements have been negotiated with universities and other institutions across Canada, North America and internationally. These agreements are assessed, revised and updated on a regular basis. Please contact the program co-ordinator for specific details if you are interested in pursuing such an option. Additional information can be found on our website at

<http://www.georgianc.on.ca/academics/articulations/>

Admission Requirements:

Applicants must meet ONE of the following requirements to be eligible for admission to this program:

- OSS Curriculum: OSSD or equivalent with Grade 12 English (C) or (U) (ENG4C, ENG4U)
- Academic and Career Entrance Certificate (ACE) program with: Communication
- Ontario High School Equivalency Certificate (GED)
- Mature applicant with standing in the required courses and/or mature student testing that meets the minimum standards for admission

Applicants who are 19 years of age or over by the first day of classes, and who lack the academic entrance qualifications, may be considered for entrance to an appropriate post-secondary diploma or certificate program as mature applicants. Each applicant will be considered on an individual basis and acceptance will be determined by counselling, Communication Placement Assessment (CPA), previous post-secondary education and evaluation of experience. Some programs also have specific prerequisite requirements that must be met prior to admission. Mature applicants must meet all program specific prerequisites. Those applying as mature students and having no documentation of Grade 12 education must supply, if required, proof of age, such as a copy of an official birth certificate or driver's licence. Refer to Section 2.5 and 2.6 of the Academic Calendar for further details.

Graduation Requirements:

- 18 Mandatory Courses
- 2 Communications Courses
- 3 General Education Courses
- 1 Co-op Work Terms

Graduation Eligibility:

To graduate from this program, the passing weighted average for promotion through each semester, from year to year and to graduate is 60%. Additionally, a student must attain a minimum of 50% or a letter grade of P (Pass) or S (Satisfactory) in each course in each semester.

Co-op Work Terms

COOP1009 Golf Work Term 1

Course Descriptions:

COMP1014 Computer Applications 42.0 Hours

This course builds on previous Internet and word processing skills. Students will be introduced to spreadsheet software and an overview of golf course software. Students

will use current software to produce a variety of documents relevant to their academic or personal needs.

COMP2029 Advanced Computer Gold Applications 42.0 Hours

It is strongly recommended that the student has previously taken Computer Applications In The Golf Industry. Students will be introduced to advanced Internet functions, power point presentations, database management systems and golf course software. Students will produce a variety of documents relevant to their academic needs for the golf course industry.

COOP1009 Golf Work Term 1 750.0 Hours

Co-op provides our students with valuable work experience which allows them to gain industry specific knowledge and explore a variety of golf career options while enrolled at Georgian. Some areas students will work in include, back shop, pro shop, organizing tournaments, junior camps and teaching. Co-op placements are paid and usually start in early April and continue until the Thanksgiving weekend. The one hour fall session, co-op class (CPHR 0001) supports the co-op process and students are strongly encouraged to attend and participate.

FNCE1001 Understanding Accounting 42.0 Hours

This introductory course is predicated on the need for non-financial personnel to understand the accounting and financial procedures necessary to operate a successful business. Revenue and cost control, the accounting cycle and basic understanding of financial statements will be covered in this course.

GOLF1000 Introduction to Golf, History and Rules 42.0 Hours

This course is designed to examine the origins of golf and the rules and etiquette that support the culture of the game and the industry. This course will provide students with an introduction to the various components which make up the golf industry.

GOLF1001 Golf Equipment, Storage and Repair 42.0 Hours

This course provides students with the information and skills necessary to successfully organize and administer a golf tournament. Students will also gain the skills and knowledge necessary to store, service and maintain golf clubs, bags, and power carts and perform basic repairs to golf clubs. The operational aspects of the driving range and it's contribution to a successful backshop will be discussed.

GOLF1002 Golf Skills Improvement 42.0 Hours

This course provides basic human anatomical and physiological theory necessary for understanding the structure and function of the body as it relates to the golf swing and its desired results. Students will assess personal golf skills given accepted measurement criteria and establish realistic goals for improvement. Regardless of the student's playing ability upon entry to the program, there is a goal of long term game improvement as

students are provided with substantial direction and tools for their own benchmarking and analysis.

GOLF1003 Industry Relationships 42.0 Hours

This course is designed to introduce students to a number of industry specialists who will present on the themes of employability skills and the importance of a professional network. Students will also be introduced to public relations and media techniques key to the development of their presentation and employability skills for the golf industry.

GOLF2000 Turf, Renovation, Construction 42.0 Hours

This introductory course in turf management and golf course renovation/construction will provide the student with the skills and knowledge necessary to develop a master plan for turf grass management which will include the organization of maintenance projects, identifying required knowledge pertaining to irrigation, turf maintenance, equipment maintenance and environmental safety. As well, the student will be exposed to the fundamentals of golf course renovation and construction including factors affecting long term planning (site balance/cost balance), environmental sensitivities, historical preservation issues and existing themes, members' needs, a basic knowledge of permit requirements and construction machinery characteristics and the ongoing consultative process between turf managers, architects, course personnel and the end user.

GOLF2001 Fundamentals of Golf Swing 42.0 Hours

Students will be introduced to the biomechanics of the golf swing including the physical laws affecting ball flight plus club and ball fitting theories. Students will examine a variety of golf swings and discuss the psychological and physical aspects that comprise an effective golf swing. Students will also evaluate classic training aids and their use, including video feedback.

GOLF2002 Golf Operations, Policies and Procedures 42.0 Hours

This course provides students with information necessary to prepare a policies and procedures manual specific to the Golf Shop. Staff scheduling, tee times, lessons, tournaments, leagues and merchandising will be discussed. Students will evaluate the contribution that the Golf Shop makes to the overall financial target of a golf facility.

GOLF2003 Introduction to Golf Facilities 84.0 Hours

This course will examine a variety of golf retail and operational programs. Students will be exposed to various golf facilities, management structures and customer service levels. Additionally, students will explore the trend towards consolidation of golf properties in Canada.

GOLF2004 Issues and Trends in Golf Operations 42.0 Hours

This course is designed to introduce students to current issues and trends impacting the golf industry. Topics will include but not be limited to social, legislative, environmental,

governmental, demographic, economic and technological issues that impact the golf business in Canada and globally.

GOLF3000 Corporate Golf Event Planning 42.0 Hours

This sixth semester course will provide students with the information and skills necessary to plan and implement corporate golf/special events. Participants will learn how to organize and co-ordinate each phase of golf event planning and how to liaise with each department in the organization. Students will also gain an appreciation for the important financial contribution that successful corporate/special events make to an organization's overall fiscal health.

MKTG1000 Introduction to Marketing 42.0 Hours

This is an overview course with primary focus on marketing products and services to the ultimate consumer. Emphasis is placed on the basic marketing premise that customer needs must be satisfied in order to achieve company objectives. The student gains insight into the complex and interdependent variables involved in developing successful marketing strategies. The strategic marketing planning process is introduced, along with the specific concepts and principles involved in the four key components of the marketing plan - Product, Price, Distribution, and Promotion Strategies.

TOUR1004 Professional Customer Service 42.0 Hours

This course focuses on the importance of service delivery as demonstrated by the front line service provider. Topics will include the art of giving and receiving effective feedback and the importance of service quality standards and performance appraisals. An underlying theme is the effective use of communication skills including listening.

TOUR1007 Hospitality Industry Certifications 42.0 Hours

This course will provide students with the opportunity to participate in and acquire certification in Workplace Hazardous Material Information System (WHMIS) training, Standard First Aid and Basic Rescuer (CPR) training, Smart Serve training, Coaching theory along with up to 1 other certificate opportunity specific to the student's industry focus.

TOUR1008 Introduction to Hospitality Services 42.0 Hours

This course develops essential knowledge and skills in core food and beverage services common to hospitality, tourism, and recreation operations. Students have the opportunity to gain specific practical experience required to work in this industry. Guest service procedures, and effective customer service skills and attitudes will be developed and practiced to meet the high level of service quality desired in this niche area of food and beverage service.

TOUR2001 Supervision in the Hospitality and Tourism Industry 42.0 Hours

This course will provide students with the skills required to attract, select, hire and orient staff in a culturally diverse workplace. The students will also gain an

understanding of the principles of building a team environment. Students will examine topics such as establishing a positive work climate, employee training, motivation, evaluation and discipline, and personal management skills including problem solving, ethical analysis, and organization.
