

ELECTRICAL ENGINEERING TECHNOLOGY

Program: EETY

Credential: Ontario College Advanced Diploma, Co-op

Delivery: Full-time

Work Integrated Learning: 3 Co-op Work Terms

Length: 6 Semesters, plus 3 work terms

Duration: 3 Years

Effective: Fall 2019, Winter 2020

Location: Barrie

Description

The curriculum incorporates theory, applications and practical experience from the manufacturing, robotics, computer communications and utilities industries, along with concepts from the sciences and humanities to ensure the graduate is provided with current technical knowledge, skills and practice.

Career Opportunities

There has never been a better time to enter the field of Engineering Technology to serve today's global market economy. The numbers of jobs in Electrical Technology have been growing steadily including opportunities in specialized robotics manufacturers, automotive support industries, equipment manufacturers, and utilities as well as product installation and service, design and testing, research, maintenance, industrial sales and marketing, estimating, contract and project administration as well as quality control.

Program Learning Outcomes

The graduate has reliably demonstrated the ability to:

1. analyze, interpret, and produce electrical and electronics drawings, technical reports including other related documents and graphics;
2. analyze and solve complex technical problems related to electrical systems by applying mathematics and science principles;
3. design, use, verify, and maintain instrumentation equipment and systems;
4. design, assemble, test, modify, maintain and commission electrical equipment and systems to fulfill requirements and specifications under the supervision of a qualified person;
5. commission and troubleshoot static and rotating electrical machines and associated control systems under the supervision of a qualified person;
6. design, assemble, analyze, and troubleshoot electrical and electronic circuits, components, equipment and systems under the supervision of a qualified person;
7. design, install, analyze, assemble and troubleshoot control systems under the supervision of a qualified person;
8. use computer skills and tools to solve a range of electrical related problems.
9. create, conduct and recommend modifications to quality assurance procedures under the supervision of a qualified person;
10. prepare reports and maintain records and documentation systems;

11. design, install, test, commission and troubleshoot telecommunication systems under the supervision of a qualified person;
12. apply and monitor health and safety standards and best practices to workplaces;
13. perform and monitor tasks in accordance with relevant legislation, policies, procedures, standards, regulations, and ethical principles;
14. configure installation and apply electrical cabling requirements and system grounding and bonding requirements for a variety of applications under the supervision of a qualified person;
15. design, commission, test and troubleshoot electrical power systems under the supervision of a qualified person;
16. select and recommend electrical equipment, systems and components to fulfill the requirements and specifications under the supervision of a qualified person;
17. apply project management principles to contribute to the planning, implementation, and evaluation of projects;
18. apply basic entrepreneurial strategies to identify and respond to new opportunities;
19. explain how electrical and electronic systems and work practices impact the environment.

Practical Experience

Co-operative Education is a mandatory component of all Co-op programs at Georgian College; it has been designed as a process by which students integrate their academic education with work experience related to their programs of study. This integration affects much more than simply earning a salary, including the adjustment to the work environment and the development of professionalism. It also reinforces skills and theory learned during academic semesters, develops professional contacts, job knowledge and career path, improves human relations and communication skills, and promotes personal maturity and financial independence.

Students are requested to register, attend and participate in their scheduled co-operative education classes. These classes are scheduled for all first year students and are expected to be completed in order for students to proceed successfully to their first co-op work experiences. To ensure students are eligible to proceed onto any co-op work experience, students should refer to Promotional Status and Eligibility for Co-op as outlined in the College Calendar. Co-op policies and procedures can be located on our website: www.georgiancollege.ca/student-services/co-op-and-career-services/students-tab/ (<http://www.georgiancollege.ca/student-services/co-op-and-career-services/students-tab/>)

Georgian College follows the Co-operative Education guidelines set out by the Canadian Association for Co-operative Education (CAFCE) and Education at Work Ontario (EWO) by supporting the learning outcomes designed for the program specific graduate profile and curriculum as set out by the Ministry of Advanced Education and Skills Development.

External Recognition

This program is accredited by Technology Accreditation Canada (TAC) and by the Ontario Association of Certified Engineering Technicians and Technologists (OACETT).

This program is accredited by the Canadian Association for Co-operative Education (CAFCE).

The Program Progression

Fall Intake

- **Sem 1:** Fall 2019
- **Sem 2:** Winter 2020
- **Work Term 1:** Summer 2020
- **Sem 3:** Fall 2020
- **Work Term 2:** Winter 2021
- **Sem 4:** Summer 2021
- **Work Term 3:** Fall 2021
- **Sem 5:** Winter 2022
- **Sem 6:** Summer 2022

Winter Intake

- **Sem 1:** Winter 2020
- **Sem 2:** Summer 2020
- **Work Term 1:** Fall 2020
- **Sem 3:** Winter 2021
- **Work Term 2:** Summer 2021
- **Sem 4:** Fall 2021
- **Work Term 3:** Winter 2022
- **Sem 5:** Summer 2022
- **Sem 6:** Fall 2022

Articulation

A number of articulation agreements have been negotiated with universities and other institutions across Canada, North America and internationally. These agreements are assessed, revised and updated on a regular basis. Please contact the program co-ordinator for specific details if you are interested in pursuing such an option. Additional information can be found on our website at <http://www.georgiancollege.ca/admissions/credit-transfer/>

Admission Requirements

OSSD or equivalent with

- Grade 12 English (C or U)
- Grade 12 Mathematics (C or U)

Mature students, non-secondary school applicants (19 years or older), and home school applicants may also be considered for admission. Eligibility may be met by applicants who have taken equivalent courses, upgrading, completed their GED, and equivalency testing. For complete details refer to: www.georgiancollege.ca/admissions/policies-procedures/ (<http://www.georgiancollege.ca/admissions/policies-procedures/>)

Applicants who have taken courses from a recognized and accredited post-secondary institution and/or have relevant life/learning experience may also be considered for admission; refer to the Credit Transfer Centre website for details:

www.georgiancollege.ca/admissions/credit-transfer/ (<http://www.georgiancollege.ca/admissions/credit-transfer/>)

Additional Information

Students who have graduated from Georgian College's Electrical Techniques Certificate program (ELTQ) must apply to be admitted with advanced standing. ELTQ students, upon admission, must complete a selection of semester 1 and 2 courses to align with program progression.

Graduation Requirements

- 32 Program Courses
- 2 Communications Courses
- 3 General Education Courses
- 3 Co-op Work Terms

Graduation Eligibility

To graduate from this program, the passing weighted average for promotion through each semester, from year to year, and to graduate is 60%. Additionally, a student must attain a minimum of 50% or a letter grade of P (Pass) or S (Satisfactory) in each course in each semester unless otherwise stated on the course outline.

Graduation Window

Students unable to adhere to the program duration of three years (as stated above) may take a maximum of six years to complete their credential. After this time, students must be re-admitted into the program, and follow the curriculum in place at the time of re-admission.

Information contained in College documents respecting programs is correct at the time of publication. Academic content of programs and courses is revised on an ongoing basis to ensure relevance to changing educational objectives and employment market needs. The college reserves the right to add or delete programs, options, courses, timetables or campus locations subject to sufficient enrolment, and the availability of courses.
