1.0 Purpose

Georgian College recognizes its responsibility to take every reasonable measure to protect the health and safety of its college community. Georgian College understands its obligations under Ontario's Occupational Health and Safety Act, the Ontario Human Rights Code, the Freedom of Information and Protection of Privacy Act and other relevant legislation in its response to COVID-19 and its 'Variants of Concern' (VOCs). Decisions related to the college's response to COVID-19 and its VOCs are driven by the college's primary guiding principle, namely: to take all reasonable precautions and to enact all reasonable measures to ensure the health and safety of the College Community at large.

In keeping with this purpose, the college, in conjunction with other safety measures, is enacting a vaccination procedure as a reasonable means to protect the health and safety of the College Community.

2 Scope

Georgian College's vaccination procedure relates specifically to COVID-19 and will remain in effect at the discretion of the college. The college's vaccination procedure applies to the following persons:

- All members of the College Community required to attend any campus or facility owned, operated or controlled by the college.
- All college employees, regardless of whether or not their job responsibilities require them to attend any campus or facility owned, operated or controlled by the college.

Any reference to COVID-19 in this document also includes any and all VOCs past, present or future.

Georgian College will closely monitor COVID-19 data on a weekly basis to determine to what degree the campus can be generally open to visitors and/or any other attendees. Information regarding college operations and COVID-19 is posted [here](#).

Patients and clients attending the Georgian Nurse Practitioner-Led Clinic or the Student-led health and wellness clinics subject to regulatory college requirements are excluded from this procedure unless otherwise advised. The college has excluded health care patients/clients from the scope of this procedure because the exclusion is consistent with the professional duties of its on-site health care providers; and, the important need for unimpeded access to primary health care. Hairstyling and Spa/Esthetics clients are not considered health and wellness clinic patients and must provide proof of vaccination to gain entry. We have imposed additional controls to address the risks associated with this exclusion. In the event changes to professional practice occur, these will be considered and, if approved, posted. [Persons not eligible to be vaccinated in Canada due to age](#) are exempt from this policy.
